PANDA BEAR NEWS

CLASSROOM HAPPENINGS

Spring has sprung at the nursery school! The warmer weather has brought flowers and blooming trees. The Pandas have been talking about gardening, butterflies and chicks. We have three chicks and ten caterpillars. The chrysalises have formed and in a few days Painted Lady Butterflies will emerge.

Before Parent/Teacher Conferences, our theme was baseball. We wore baseball shirts, learned about the different positions, sang "Take Me Out to the Ballgame" and rooted for the Cardinals.

During Science on the Move, Ms. Becky talked about the Food Chain. Each child was a link in the chain starting with the sun. The children learned about what would happen if there was a missing link in the chain.

IMPORTANT DATES:

- | | |
|--------------|-----------------------------------|
| May 3, 2019 | Day for Mom's
2:15-3:15 |
| May 7, 2019 | WUNS Picnic at Shaw
Park, 5:30 |
| May 15, 2019 | Last Day for Students, |

CLASSROOM HAPPENINGS, CONT.

In the beginning of this week when it was not raining, the Pandas enjoyed being outside. The water was running. The children filled up the dinosaur and elephant watering cans to water the grass, the flowers, the sand, the climber and everything else that could get wet. The children collaborated with each other on making dams in the water trough and when to release the water. It sometimes became a big debate.

The children planted two Hibiscus plants and a couple Dianthus flowers in the ever growing beautiful garden. Thank you Marsha!

Currently, the children are working on a secret and special project for Mother's Day. We think you will love their beautiful gift and appreciate their hard work. The Pandas are excited about the upcoming Day for Mom's, Grandparents and Friends on May 3.

**THANK YOU FOR MEETING WITH US
DURING PARENT/TEACHER
CONFERENCE TIME. WE ENJOYED
SHARING YOUR CHILD'S PROGRESS
WITH YOU! WE APPRECIATE YOUR
SUPPORT AND PARTNERSHIP THIS
SCHOOL YEAR!**

*Much Love,
Marsha and Chona*
